1939 PRICE LIST

In again presenting our list of Distinctive Glads, we wish to thank our friends for their fine orders which caused our modest business to greatly increase during the past year. The number of repeat orders from customers of former years together with their letters of commendation assure us of the uniformly fine results obtained by those who purchase our bulbs. We appreciate greatly the fine things they tell their friends. Each year many of our new customers come from this source.

In addition to the fine varieties from other originators we are including this year one of our own origination, Flora Farmer, which we believe is worthy to be classed as a Distinctive Glad. As usual we have tried to keep our list selective rather than all inclusive. We have discontinued a few varieties formerly listed and have added some of the newer ones being careful to include only those which, on the basis of our personal experience, seem to have unusual merit.

All stock is guaranteed to be healthy, vigorous, free from thrips and true to name. **You must be satisfied.** The prices are very low for the high quality bulbs which we are offering. All quotations are subject to previous sale. We urge that you place your orders early so that you may not be disappointed. Last year we were unable to fill late orders of a number of varieties. Bulbs will be shipped as soon as danger of freezing is past and in plenty of time for planting unless you request otherwise. However, bulbs can be sent any time desired. No substitutions will be made without your permission. If we are out of a variety you order your money will be refunded unless you give us permission to make a substitution of size or variety.

PLEASE READ CAREFULLY

All prices from the retail list are prepaid to points in the United States. Prices as indicated in the quantity list are not pre-paid but are F. O. B. New Cumberland, Pa. A discount of 5% will be allowed on cash orders of $2.00 to $5.00 for named varieties from the retail list. On cash orders of over $5.00 a discount of 10% will be allowed. These discounts do not apply to our new introduction Flora Farmer, to mixtures, nor to orders from the quantity price list. We also include worthwhile extras with retail orders. The value of the extras will be in proportion to the size of the orders. Suggest varieties desired as extras. If we have sufficient stock we will be glad to comply with your request.

Where a variety is listed at 2 for 10c or 2 for 12c please do not order a smaller number at a lower price. Five or more bulbs of the same variety will be sold at the 10 rate but no single item will be accepted for less than 10c. Twenty-five bulbs of the same variety will be sold at twice the price of ten. Where a 100 rate is also indicated 50 bulbs of the same size and variety will be sold at the 100 rate.

All bulbs listed as large size are 1¼ inches and up, mostly 1½ inches and up, in diameter. Medium size bulbs are ¾ to 1¼ inches in diameter. Small bulbs are ¼ to ¾ inches in diameter. For the finest blooms large bulbs are best. Medium size bulbs of most varieties will give nice cut flowers but the spikes are not as long as from large bulbs. Although small bulbs of many varieties will bloom, others will not. The blooms from small bulbs will be noticeably smaller in size. Bulblets seldom bloom and are often difficult or impossible to germinate. We do not recommend them except to experienced growers.

VARIETY	LIMITED DESCRIPTION	BULBS Per	Large	Med.	Small	BULBLETS Per	
AFLAME	Rich deep begonia rose, shading to orange flame. Large florets. Tall spike. Midseason.	2	.10	.....	.....	pkt.	.10

Flora Farmer

DISTINCTIVE GLADS

EVERETT A. QUACKENBUSH

New Cumberland, Pa.

IT IS with great pride that we present Flora Farmer, the first Gladiolus of our origination to be introduced. Because of its unusual beauty, its charm, its difference in color from other available varieties, and its many fine qualities, we believe that it represents a distinct contribution to the realm of Gladiolus.

As Seedling 31G3 it attracted favorable attention at the several eastern shows where displayed during the past summer. At the Boston Show of the New England Gladiolus Society it was granted an Award of Merit by the Massachusetts Horticultural Society. At Syracuse the Empire State Gladiolus Society awarded it a Certificate of Merit. In the popularity vote at the show of the Maryland Gladiolus Society, where a vase of this seedling was displayed with our trade exhibit, 136 varieties were included on the ballots deposited by the visitors but only two varieties, Picardy and Minuet, received a greater number of votes than did this then unnamed seedling.

Flora Farmer is a very beautiful, radiant, pure pink with a creamy white throat. The color of the larger outer petals often deepens toward the edges and outer points to almost a light red. Its two lower inside petals are creamy white edged with pure pink. The florets are large and nicely ruffled. They are usually 5½ to 6 inches in diameter, although florets as large as 6¾ inches are not unusual on well-grown spikes. Under ordinary conditions it usually opens 5 or 6 large florets at a time, although we have seen it with 9 open. Nearly all of the buds show strong color by the time the first floret opens, which adds greatly to its value for decorative purposes and as a commercial cut-flower. When cut in bud it opens up well to the tip of the spike.

Its strong spike is of good height and does not crook or fall over. The flower-head is long and usually carries 18 or 19 buds when grown from large bulbs. It is a strong, healthy grower. The leaves are broad and strong but are attached to the spike rather low so that it may be cut quite close to the ground without injury to the plant. It produces a good quantity of bulblets which germinate easily. Bulblets make good growth the first year and sometimes bloom.

This Glad is delightfully different. Like Picardy and a few others, it has that indescribable quality called "charm." In addition to its exhibition value due to its impressive size, its beauty of color and form give it great decorative value. Commercial growers and florists who have seen it believe it has great possibilities as a commercial cut-flower.

The introductory price is $5.00 each for bulbs of any size
Bulblets are offered at $1.00 each

VARIETY	LIMITED DESCRIPTION	BULBS Per	Large	Med.	Small	BULBLETS Per	
JOHN T. PIRIE	Mahogany brown, darker throat, bordered yellow. Very distinctive and odd. Midseason.	2	.10	.....	.....	.....	.....
